SUMMARY

Computer Science and Engineering graduate with practical experience in software development, data analysis, and IT systems. Proficient in Python, SQL, Power BI, cloud computing, and cybersecurity fundamentals, with hands-on skills in web and mobile application development. Committed to continuous learning, having completed advanced courses in Cybersecurity, AI, IoT, and Oracle Cloud technologies. Seeking opportunities to contribute to impactful projects by leveraging technical expertise and problem-solving abilities.

EXPERIENCE

- Tuwaiq Academy | Riyadh, Saudi Arabia**
ASP.NET Core MVC Web Development Trainee | 2026
 - Designed and developed “Nabihni Electricity” using ASP.NET Core MVC and C#.
 - Built and managed SQL Server databases using Entity Framework Core and implemented CRUD Operations.
 - Implemented Authentication, Authorization, Localization, and responsive UI using Bootstrap
- Ministry of Commerce | Hafr Al-Batin, Saudi Arabia**
Cooperative Trainee | 2024 – 2025.
 - Participated in ICT projects to develop practical technical and analytical skills.
 - Evaluated and analyzed workflows to support digital transformation initiatives.
 - Collaborated with cross-functional teams to streamline organizational processes.
 - Contributed to data-driven improvements enhancing efficiency and decision-making.
- King Fahad Medical City | Riyadh, Saudi Arabia**
Cooperative Trainee | 2024.
 - Supported healthcare system operations by applying technical expertise.
 - Optimized digital tools to improve operational workflows and efficiency.
 - Performed data analysis to enhance system performance and reliability.
 - Assisted in strengthening cybersecurity measures to safeguard sensitive data.

EDUCATION

- University of Hafr Al-Batin | Saudi Arabia**
Bachelor’s Degree in Computer Science and Engineering | May 2025.

CERTIFICATIONS & COURSES

- [ASP.NET](#) Core MVC Web Development Bootcamp | Tuwaiq Academy | July 2026
- Data Analysis Using Power BI and Excel | TVTC | September 2025.
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate | Oracle | July 2025.
- Oracle Data Platform 2025 Certified Foundations Associate | Oracle | July 2025.
- ISO/IEC 27001:2022 Lead Auditor | Mastermind | July 2025.
- Cyberthon | University of Hafr Al-Batin | December 2024.
- Capture the Flag (CTF) Challenge | University of Hafr Al-Batin | December 2024.
- Vulnerability Discovery | University of Hafr Al-Batin | November 2024.
- Web Penetration Testing | University of Hafr Al-Batin | November 2024.
- Fundamentals of Artificial Intelligence | SDAIA | November 2024.
- Data Fundamentals | IBM | October 2024.
- Working in a Digital World: Professional Skills | IBM | September 2024.
- How to Access Taylor & Francis Resources on the SDL | University of Hafr Al-Batin | August 2024.
- Data Visualization with Seaborn | Satr Platform | February 2024.
- Data Science Orientation | IBM – Coursera | November 2023.
- HCIA-AI V3.0 | Huawei | July 2023.
- HCIA-IoT (Internet of Things) Track | Huawei – Saudi Digital Academy | May 2023.
- CompTIA CySA+ Cybersecurity Analyst | Ministry of Communications and IT | March 2023.

MEMBERSHIPS

- Engineer (Computer Science) | Saudi Council of Engineers | Membership No. 1178313.

PROJECTS

- Graduation Project | Wasl: Inclusive Job Portal for People with Disabilities | 2025.
 - Developed a Flutter-based Android app using Firebase to connect individuals with disabilities to job and training opportunities.
 - Implemented accessibility features and real-time communication tools to enhance usability and promote inclusion.

VOLUNTEERING

- Volunteer | Technology & Development Committee – Saudi Developers Community | 2025 – Present.
 - Delivered Power BI & Excel workshops.
 - Prepared technical training materials.
- Volunteer | Volunteer Club – University of Hafr Al-Batin | 2023 – Present.
 - Participated in community service and social responsibility initiatives.
- Volunteer | National Volunteer Platform
 - Completed 273+ verified volunteer hours in community and non-profit initiatives.

SKILLS

- Hard Skills:**
 - Python Programming.
 - Data Analysis (Power BI, Excel).
 - SQL Server
 - Software Development.
 - Cloud Computing.
 - Cybersecurity Analysis.
 - Artificial Intelligence.
- Soft Skills:**
 - Problem-Solving.
 - Analytical Thinking.
 - Attention to Detail.
 - Effective Communication.
 - Time Management.
 - Collaboration & Teamwork.
 - Adaptability.

LANGUAGES

- Arabic.
- English.
