Recommendation Letter for Ms. Reem Buraykan Al-Shammari

07/07/2025

To Whom it May Concern,

I am pleased to write this letter of recommendation for Reem Al-Shammari, who was a student in my class of Discrete Structures course at College of Computer Science and Engineering /Hafar Al Batin University. Although I taught Reem for only one semester, she left a lasting impression through her academic excellence, leadership, and active engagement in class.

Reem consistently demonstrated a strong grasp of the course material and was among the top-performing students. What truly set her apart, however, was her natural leadership. She served as the class leader, organizing group activities, encouraging collaboration, and fostering a positive learning environment for her peers.

Her ability to communicate clearly, think critically, and lead with confidence made her an invaluable member of the class. Reem was always eager to participate in discussions, ask insightful questions, and support her classmates.

I am confident that Reem will excel in any academic or professional setting she chooses to pursue. I highly recommend her without reservation.

If any further information is required, please do not hesitate to contact me immediately.
